## OUR PRODUCTS AND SERVICES INCLUDE:

Certified Diamonds | Melee | Gemstones | Diamond Auctions | CZ Frosting | Lab Grown Screening | Stone Setting and More

**HOOVER®  
& STRONG**  
THE GOLD STANDARD

[www.hooverandstrong.com](http://www.hooverandstrong.com) • [info@hooverandstrong.com](mailto:info@hooverandstrong.com) • 800-759-9997

**Thousands of Diamonds to Choose From!**

**Conflict-Free Mined Diamonds**

Our conflict-free diamonds are sourced from diamond suppliers who participate in the System of Warranties and follow the guidelines of the Kimberley Process.

The diamonds are guaranteed to have been purchased from legitimate sources not involved in funding conflict and in compliance with United Nations resolutions.

Hoover & Strong guarantees that the diamonds are conflict free, based on personal knowledge and/or written guarantees provided by the suppliers of the diamonds.

**Harmony Recycled Diamonds™**

A recycled diamond is a naturally occurring diamond, cut & polished from mined rough, previously set in jewelry then removed, and re-introduced into the supply chain for resale.

Approximately 4.5 billion carats of diamonds have been extracted from the ground since large scale mining efforts began in South Africa in the 1870s. This means many millions of diamonds are part of the world's existing, above ground supply of diamonds.

In order to reduce the industry's reliance on environmentally damaging mining practices, Hoover & Strong is proud to participate in the acquisition and reintroduction of these many millions of diamonds back into the jewelry supply chain.

**Harmony Canadian Mined Diamonds™**

Hoover & Strong offers certified, conflict free diamonds from the Canadian Arctic. These diamonds are mined in the Canadian North and responsibly cut and polished.

Their production and sale are subject to strict standards, set out by the Canadian Code of Conduct and the Government of the Northwest Territories, designed to protect the Arctic environment, mine workers and local employees.

Known for their sparkle and clarity, Canadian diamonds rank among the most spectacular diamonds currently available.

**Lab-Grown Diamonds**

Lab-grown diamonds are created using advanced technology which replicate the natural method of diamond formation, giving them the same characteristics of natural ones, both in strength of material and sparkle. All of our lab-grown diamonds are certified and are purchased from suppliers who follow internationally recognized environmental standards.

**When searching our site for lab-grown diamonds, please note that you can narrow down your search to include the following two features:**

**As-Grown Lab-Grown Diamonds**

Indicates a lab-grown diamond which has been certified to be 'as grown', meaning no post-growth treatment or color enhancement has been performed on the diamond.

Major gemological labs, including IGI and GIA, have added this notation to their lab-grown diamond certification, similarly to how it's been noted on mined diamond certificates for years.

**Certified Sustainability Rated Diamonds**

A Sustainability Rated Diamond is a diamond from an accredited laboratory grown diamond production operation that has been evaluated against five pillars of sustainability achievement and is found to be in full conformance with the requirements of the SCS-007 Jewelry Sustainability Standard. Certificates can be obtained through H&S or directly at SCS Global Services.

**WHY BUY DIAMONDS FROM HOOVER & STRONG?**

- Great selection at great prices
- Advanced search filters and features
- Sustainable source options
- Memo program available
- We accept special and custom orders

**Certified Mined Diamonds**

We have a searchable inventory of over 8,000 conflict-free naturally mined diamonds, Canadian mined diamonds and Harmony Recycled Diamonds on our website.

Thousands of certified diamonds are available for immediate purchase or consignment. Enjoy our cutting-edge search featuring advanced filters and high quality images and videos.

- Multiple high resolution images and detailed descriptions for all stones
- No deposit required in order to place bids and 24 hour review period allows you to buy with confidence!
- Unique bidding options and notifications to help maximize your chances of winning!

**myAuction**

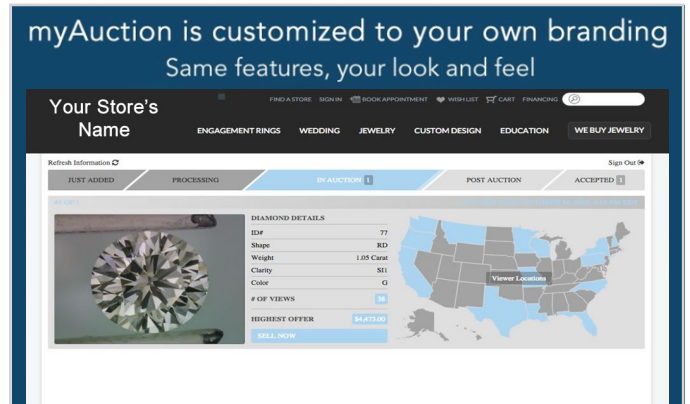

**White Label Auction Service for Retail Jewelers**

myAuction™ is a new way for retailers to buy goods over the counter (OTC) and sell back to the trade. **See how it works in the info graphic below.**

Customers can add diamonds & jewelry they want to sell to a live B2B auction, track the bids on your website, and decide to accept or reject the highest offer. Buyer info is anonymous, and your commission is built into the offers. myAuction is FREE and can be set-up on your website within a day.

**Start buying more OTC with myAuction™ today!**

**Contact one of our specialists:** [auction@hooverandstrong.com](mailto:auction@hooverandstrong.com) or 1-800-759-9997 ext. 485

**HOW IT WORKS?**

<p>TAKE YOUR CUSTOMERS' DIAMONDS AND JEWELRY ON CONSIGNMENT</p> 	<p>SHIP THEM TO HOOVER &amp; STRONG</p> 	<p>WE WILL INSPECT, GRADE &amp; PHOTOGRAPH THEM IN PREPARATION FOR AUCTION</p> 	<p>WE WILL OFFER THEM ON OUR AUCTIONS ONLINE</p> 
<p>DOZENS OF QUALIFIED BUYERS WILL COMPETE FOR THE ITEMS</p> 	<p>YOUR CUSTOMER WILL LOG ONTO YOUR WEBSITE TO REVIEW THE HIGHEST BID</p> 	<p>YOUR CUSTOMER GETS PAID (OR GETS STORE CREDIT)</p> 	<p>YOU GET A COMMISSION IT'S THAT SIMPLE!</p> 

**FREQUENTLY ASKED QUESTIONS**

**How much does myAuction cost?**

The service is free. This includes embedding the plug-in onto your website, as well as training and service. You will be responsible for the shipping fees of any items shipped into the auction or returned from the auction.

**How are payments processed?**

Payments are processed immediately after the auction ends. We offer both check or wire payments, which can be sent to you or directly to your customers.

**What if an item doesn't sell?**

When an auction ends, we ship all unsold items back to your store so you can return them to your customers.

**I'm already buying any OTC goods I can from my customers, can I still benefit from this service?**

While you can make an offer on any item your customers offer you, not all of your offers are accepted, so instead of turning your customers away, you can offer the auction service as an option if the offer you made isn't accepted.

**I don't feel comfortable buying OTC goods, can I still benefit from this service?**

Of course. Instead of turning away your customers that are looking to sell their unwanted jewelry, you get to offer them a service which will expose their item to hundreds of qualified buyers, allowing them to receive the best market offer for their item.

**Diamond Melee Purchasing - Don't Just Sell Your Diamonds, Recycle Them!**

**We will buy your diamonds and we'll offer the BEST PRICES, too!**

No matter what the quality or the quantity! We buy diamond breakouts and melee in all sizes, shapes and qualities, including chipped or broken stones. AND, we will pay the highest prices for your stones.

**Why Sell Us Your Diamonds?**

For generations, jewelers and pawnbrokers have trusted and relied on Hoover & Strong to buy their scrap precious metals at the highest prices. We have worked hard to maintain our reputation and will continue to do so as we celebrate over a century in the manufacturing and refining business!

You have trusted our expertise and customer service for many years. You can trust us with your precious stones as well!

- **No minimum, no obligation purchase quotes are usually available within 24 hours**
- **Free evaluations**

## Lab-Grown Screening

We can separate lab-grown diamonds from natural diamonds in your melee parcels and jewelry items. Lab-grown diamonds have gained popularity in recent years. While they present a great cost-effective alternative to natural diamonds, it is crucial they are identified and disclosed to the consumers when sold. If you are accepting diamond jewelry through upgrades or buy them outright from consumers, the items you buy may feature lab-grown diamonds. It is your responsibility to make sure you identify any lab-grown diamonds before resale, and we're here to help!

Our lab-grown detection process is quick and reliable and it allows us to detect both CVD and HPHT grown diamonds. The process is safe for all diamonds and precious metals and doesn't involve any chemicals.

### **Pricing:**

**Diamond Parcel** - 0 - 50 carats total weight - \$49 per parcel  
**Diamond Parcel** - 50 - 100 carats total weight - \$79 per parcel  
**Jewelry item set with 5 stones or less** - \$5 per item  
**Jewelry item set with 5-50 stones** - \$10 per item  
**Diamond parcel over 100 carats or jewelry item set with over 50 stones** - priced upon review

To learn more about our diamond services, contact us at 1-800-759-9997, Ext. 164 or email us at: [diamonds@hooverandstrong.com](mailto:diamonds@hooverandstrong.com)

Scan this QR code to complete the lab-grown screening or CZ frosting form on our website.

## Chemical Stone Removal

Removing diamonds from gold, platinum or palladium channel, pave and cluster settings can be a time-consuming process, often resulting in significant breakage.

Our state-of-the-art chemical processing facility is able to remove your diamonds quickly and safely.\*

**STONE REMOVAL IS FREE ON GOLD** when the fine metal recovered is AT LEAST 5 oz. (\$75 charge for less than 5 oz.)

### **Please Note:**

- Stone removal lots must be separate from non-stone lots or additional charges may apply
- Platinum stone removals require extra lead time

**Important:** ALL LOOSE STONES must be mailed separately from your refining material and clearly marked to "Dept. 291" to ensure they are received directly by our diamond department. We cannot assume responsibility for damaged or missing loose stones when they are mixed with your refining material.

*\*Pearls, opals, colored and synthetic stones usually undergo color changes, chipping and cracking and may not be recovered. We do not offer stone removal from silver.*

**CZ Frosting - The Easy Way to Separate CZs From Diamonds**

During this chemical process, the CZs in the parcel get etched (similar to etched glass) and therefore are easily detectable and separable from the diamonds in the parcel. This process is safe for diamonds, but does affect colored gemstones and could permanently damage them. Make sure to have any valuable gemstones removed from your parcel before sending them in.

**Pricing:**

**CZ frosting is \$50 per parcel.** This fee will be added to your refining charge. (Fee includes the CZ frosting only). Pricing is for lots up to 1000.00ct. Larger lots will be priced individually.

**CZ Separation** - This service, which is done after the frosting, will be charged at \$1 per carat.

**Colored Stones Separation** - Since the CZ frosting process can permanently damage colored gemstones, we can separate the colored gemstones before the CZ frosting process. Charge for this service is \$25.

**Stone Setting**

We offer a wide range of stone setting services, with expertise in all types of setting styles. From a simple four prong to the most difficult Micro-pave, our years of experience and dedication are unparalleled.

Our trained setters are ready to help with all your stone setting needs, including prong, bezel, channel, burnish, pave and more. We can set and finish your jewelry with your stones or with ours.

Scan this QR code to complete the stone setting submission form on our website.

**SAVE TIME & MONEY!**

Have our diamonds set in machine set anniversary bands, diamond rings, pendants or earrings all made with Harmony Recycled Precious Metals.

**WHY BUY DIAMONDS FROM HOOVER & STRONG?**

Hoover and Strong has partnered with some of the strongest Diamond Site Holders in the world in order to provide you with the best quality diamonds at the best prices! Although we are known as a precious metal and findings manufacturer, we have grown our diamond business to include a full range of diamond products and services.

We understand that tight calibrated diamonds are needed to create beautiful engagement rings and anniversary bands with smooth and uniform settings. When jewelers provide their own diamonds to be set in our products, 75% of the time they are not matching in size. This causes delays because the jeweler has to send in more stones.

You can avoid the headache and time delay by using our diamonds instead of providing your own. **We offer a large selection of melee diamonds in many qualities and categories. This includes Harmony Recycled melee, Canadian Origin melee, Signature Premium Cut melee, and Lab Grown melee.** You can choose the perfect diamonds quickly and easily on our website.

**Questions?** Contact our Diamond Manager Brian Shaffer or a member of our Diamond Team at ext. 164. For more details visit our website at [www.hooverandstrong.com/diamonds](http://www.hooverandstrong.com/diamonds) to search our complete diamond inventory and diamond services.

- Great selection at great prices
- Advanced search filter and features
- Sustainable source options
- Memo program available
- We accept special and custom orders
