# HOOVER & STRONG LAB GROWN SCREENING SERVICE TERMS & CONDITIONS

The Lab Grown screening Service (hereinafter "Service") is provided by Hoover & Strong, Inc. (hereinafter "H&S") subject to the terms and conditions hereinafter set forth.

The parcel(s) submitted for screening are examined 1. in the H&S facility using the Sherlock Holmes Detector by Yehuda Ltd. (hereinafter "Sherlock Detector"). The Sherlock Detector has been tested by the Diamond Producers Association's Assure program (ASSURE ID: 5169974) and has been found to have a ratio of 0% of lab grown diamonds incorrectly classified as mined diamonds to the total number of lab grown diamonds (Diamond false positive rate). The Assure testing also found the ratio of diamonds correctly classified as mined diamond to the total number of diamonds is 97.5% (diamond accuracy rate), which could result in up to 2.5% of the mined diamonds inspected to be screened as lab grown.
